

SEENIVASAN V

Data Analyst | Python · SQL · Power BI · Excel

9344257610 | seeni3188@gmail.com | linkedin.com/seenivasan | github.com/seenivasan-v | Portfolio

PROFESSIONAL SUMMARY

Data Analyst trained in Python, SQL, Power BI, and Advanced Excel, with hands-on experience in data cleaning, ETL, dashboard development, and business reporting. Skilled in exploratory data analysis, trend identification, and translating raw data into actionable insights that support cross-functional, data-driven decision-making. Seeking an entry-level Data Analyst role to apply strong analytical fundamentals and deliver measurable business impact.

EXPERIENCE

Data Analyst Trainee

2026

C Cube Technologies – Karaikudi

Completed a 6-month training program covering Python (Pandas, NumPy), SQL, Power BI, and MS Excel with hands-on experience in data cleaning, ETL pipelines, and KPI dashboard building. Applied statistical analysis, exploratory data analysis (EDA), and data mining techniques through real-world dataset assignments and project-based learning.

SKILLS

Programming: Python - data cleaning, EDA, automation, OOP fundamentals

Databases & SQL: DDL, DML, DCL, DQL, TCL; JOINS, subqueries, aggregation functions; query optimization for real-time reporting and data accuracy

Data Visualization: Power BI (data import, report building, interactive dashboards); Advanced Excel (Pivot Tables, Pivot Charts, Slicers, KPI cards, conditional formatting)

Analysis: Exploratory Data Analysis (EDA), trend analysis, data mining, data validation, statistical analysis, business reporting

Web Technologies: HTML, CSS, JavaScript - built front-end pages and back-end logic for a data-driven web application

PROJECT

Mobile & Laptop Sales Dashboard

Data Analyst Trainee | C Cube Technologies

MS Excel | Pivot Tables | Pivot Charts | Slicers | KPI Cards

- Engineered an Excel dashboard analyzing 5,001+ sales records across 3 categories and 5 regions, cutting manual reporting effort by 60%.
- Built 6 KPI cards and 4 Pivot Charts with Slicer-based filtering, identifying top 2 product lines driving 43% of total revenue and flagging 2 underperforming regions.

Job Portal Web Application

Web Development Trainee | C Cube Technologies

HTML | CSS | JavaScript | SQL | Python | Flask

- Built a job portal supporting multi-keyword and skill-based search across 100+ listings, reducing irrelevant search results by 40% through optimized SQL filtering.
- Designed 10+ SQL queries with JOINS and WHERE clauses for real-time filtering and a responsive front-end for seamless navigation.

Blood Group Detection Using Fingerprint

Academic Major Project | Coimbatore Institute of Engineering and Technology (CIET)

Python | OpenCV | Flask | SIFT | Image Processing

- Automated fingerprint matching using SIFT and BFMatcher across 40+ samples, achieving consistent blood group prediction with zero manual intervention.
- Delivered a Flask web application generating structured PDF reports in under 5 seconds, replacing a fully manual identification process.

EDUCATION

Bachelor of Information Technology

2022 - 2026

Coimbatore Institute of Engineering and Technology [7.41]

Higher Secondary Certificate (HSC)

2021 - 2022

Infant Jesus Matric Higher Secondary School [73.5%]

Secondary School Leaving Certificate (SSLC)

2019 - 2020

Infant Jesus Matric Higher Secondary School [83.2%]
