CAREER OBJECTIVE

Aspiring Data Analyst and IT Graduate skilled in Python, SQL, MS Excel, and Data Visualization. Passionate about transforming data into meaningful insights and contributing to data-driven decision-making.

EDUCATION

- Bachelor of Information Technology 2022 - 2026
Coimbatore Institute of Engineering and Technology
CGPA: 7.41
- Higher Secondary Certificate (HSC) 2021 - 2022
Infant Jesus Matric Higher Secondary School
Percentage: 73.5%
- Secondary School Leaving Certificate (SSLC) 2019 - 2020
Infant Jesus Matric Higher Secondary School
Percentage: 83.2%

SKILLS

Programming Languages:

- Python (Intermediate)
- SQL (Intermediate)

Web Technologies:

- HTML
- CSS

Tools:

- MS Excel (Advanced)
- Power BI (Basic)

CERTIFICATIONS

- Data Analyst Program – C Cube Technologies (Expected Completion: 2026)
- Web Development Program – C Cube Technologies (Expected Completion: 2026)
- Research Paper Presentation – IoT-Based Adaptive Traffic Management System, CIETM-2026

PROJECT

Blood Group Detection Using Fingerprint

Technologies: Python, OpenCV, Flask, SIFT, Image Processing

- Developed a fingerprint-based blood group prediction system using Python and OpenCV.
- Implemented SIFT feature extraction and BFMatcher algorithms to compare uploaded fingerprints with stored fingerprint datasets.
- Built a Flask-based web application that generates blood group detection reports in PDF format for end users.

IoT Based Traffic Adaptive System (Prototype)

Technologies: Arduino Mega, IR Sensors, IoT, Embedded Systems

- Designed a prototype smart traffic management system using Arduino Mega and 9 IR sensors.
- Monitored real-time traffic density and adapted signal timing to reduce congestion at intersections.
- Demonstrated applications of IoT in smart city and intelligent transportation systems.

Job Portal Web Application

Technologies: HTML, CSS, JavaScript, SQL, Python

- Developed a web-based job portal enabling users to search and filter job opportunities using skills and keywords.
- Implemented filtering and search functionalities to improve job discovery.
- Applied web development and database concepts to enhance user experience.

Mobile & Laptop Sales Dashboard

Technologies: MS Excel, Pivot Tables, Pivot Charts, Slicers

- Developed an interactive sales dashboard using Microsoft Excel to analyze 5,001 sales records.
- Utilized Pivot Tables, Pivot Charts, Slicers, and KPI Cards for dynamic reporting.
- Generated insights on revenue trends, product performance, and regional sales distribution.
